

The Welford Free Standing Canopy Technical Specification (Free Standing, Entrance Canopy & Walkway System)

The Welford provides an entirely new way to build a free standing canopy using a unique corner structure for ultimate strength and large self-supporting spans.

Vandal & Shatter Resistant

The Welford's 5mm solid polycarbonate panels are resistant to all mechanical stresses both accidental and intentional, even when particularly heavy. It is therefore particularly suitable for use in areas where vandalism is a potential problem.

Full Guarantee

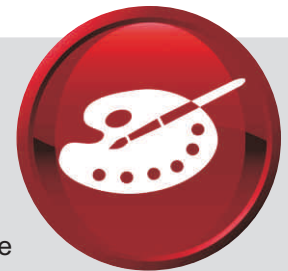

The Welford carries a full 10 year insurance backed guarantee for complete peace of mind.

Maintenance FREE

The Welford requires minimum maintenance. To clean the roof we recommend a solution of warm water and a non-abrasive cleaner.

Choice of Colour

Glazing panels are available in clear, opal & bronze. The frame is available in any of our standard RAL colours. Non-standard RAL colours are available at an additional cost.

The Welford Free Standing Canopy Technical Specification

Weather resistance

During the manufacture of our polycarbonate panels a layer of UV absorber is co-extruded on both sides which forms a barrier giving high UV protection from the sun.

Temperature Range

The polycarbonate's mechanical performance is known to remain stable in prolonged temperatures ranging from -50°C to $+90^{\circ}\text{C}$.

Canopy Fittings

The Welford is fitted with guttering and down pipes and is fully installed by our own, in-house trained teams of fitters.
