

# SAFETY BICYCLE REST

## Model Series 9100 / 9200 / 9300

*Model Series 9100:  
in robust steel tube construction*

*Model Series 9200:  
with additional crossbar.*

*Model Series 9300:  
designed for optimum parking.*

**Tried and tested parking facility for bicycles – offers stability and anti-theft protection.**

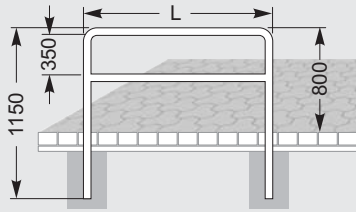

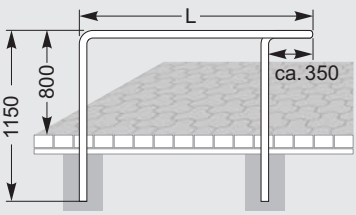

- Bicycles of all sizes and types can be locked via the frame.
- Sturdy steel tube, diam. 48 mm, corrosion protected and long-lived thanks to hot galvanizing.
- Can be supplied for direct grouting in concrete or with base plates for bolting.
- Recommendation: For orders in excess of 3 items, favourable freight rates apply.

Installation dimensions in mm

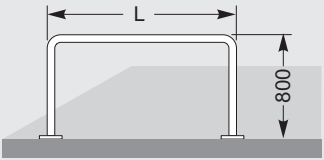

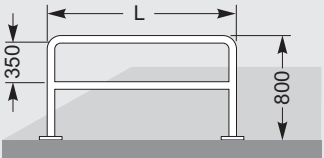

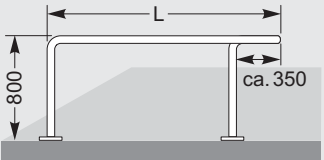

Base plate for bolting

## For setting in concrete
